**Summary of Legislation:** This bill requires the Air Pollution Control Board to adopt rules providing a waiver from vehicle emission testing requirements for a motor vehicle that is registered in Clark, Floyd, Lake, or Porter County but operated primarily in another state more than 600 miles away in which vehicle emission testing is not required. The waiver shall be available on an annual basis. The bill provides that the rules must require that the vehicle be tested when the vehicle is brought into the county of registration. The bill also makes conforming amendments.

**Effective Date:** Upon passage; January 1, 2002.

**Explanation of State Expenditures:** This proposal would have no fiscal impact upon the Indiana Department of Environmental Management (IDEM). IDEM presently issues out-of-state waivers from emission testing by use of State Form 44477 (R/3-99). Vehicles located out-of-state can receive a one-year waiver and can be applied for annually. This waiver is generally used for college students, military personnel, snow birds, and company vehicles registered in Indiana but housed in another state. Any rulemaking activities would be absorbed with existing resources.
